

THE CHRONICLE

VOL. IV. NO. 20.

CROSSFIELD, ALBERTA, FRIDAY, MAY 12, 1911.

PRICE \$1 A YEAR.

A FRIEND

In time of need is a friend indeed. Then why not be warm and comfortable during the winter months? Is a question to be answered by all. Our Fine Selection of Good Coal is Your only True Winter's Friend. It can be used in the Furnace, Heater, or Cook Stove, or the warm Fire-side. Prices Reasonable.

CROSSFIELD LUMBER YARD

Cheap Lumber

YOUR LAST CHANCE FOR THIS SEASON TO BUY CHEAP LUMBER

We want to clear out our entire stock of about 250,000 feet of well seasoned, Dry Pine Lumber, during the month of March.

One Proof: That the Lumber is good and that we can save you money, is clearly seen, when we have sold and taken orders for about 500,000, in the past three months.

See our stock and get our prices and you will be convinced.

If you cannot haul the lumber yourself, we'll deliver it for you, to any point.

(WANTED, TEAMS TO HAUL LUMBER)

For further particulars apply to

SILVER CREEK LUMBER CO., or ALLAN GOOD
CREMONA, ALTA. DIDSBURY, ALTA.

Why not Save Money?

And have Your Shoes Repaired.
We turn out First-Class Work.
TERMS STRICTLY CASH

THE ARCADE POOL HALL and CIGAR STORE

Come in and spend a pleasant hour and try our Cigars and Soft Drinks. Latest and best Magazines always kept in stock. Best of Music always on the go.

Pipe Repairing a Speciality

W. TIMS - **PROP.**
CROSSFIELD - **A BERTA**

Do You Want to Sell?

This is the season of the year, when Alberta is over run with land seekers. We arrange to meet all trains, and because of our large outside connections we are in a first-class position to get the right man for the right place.

Do You Want to Buy?

We undoubtedly have the largest listing of farm property for sale in this district of Alberta. We also have an office list at our disposal, of the owners of all land for many miles around Crossfield. We can get you what you want.

WE HAVE MONEY TO LOAN
Life Insurance. Fire Insurance

J. S. Martin, Notary Public.
Crossfield Alberta.

LOCAL AND GENERAL

Good afternoon.

Today is Arbor Day.

F. D. Shand, of Dog Pound was a business visitor in Crossfield yesterday.

Born---To Mr. and Mrs. J. S. Martin, at Crossfield, on Tuesday, May 9th, a son.

F. Frew attended the convention of the Modern Woodmen of America at Edmonton last week.

Geo. Stratton, of the Alberta Hotel, was a business visitor at the ball game in Calgary yesterday.

C. H. Payne, representing the Massey-Harris Co., was a business visitor in Crossfield this week.

It is practically certain that Crossfield will have an addition of three new elevators to handle the crop of 1911.

Messrs. Harvie, Motheral, Wan, Martin and H. Outkes were in the west country on a fishing trip the first of the week.

W. Coggins was taken to the Holy Cross Hospital on Tuesday of this week to undergo an operation for an abscess in the breast.

At the meeting of the License Commissioners held in Calgary on Wednesday, May 10, the Alberta Hotel here was recommended for a license for another year.

Mr O'Neil delivered a carload of fine steers to McDaniel Bros., of Carstairs, on Wednesday, which were shipped from the Stock Yard here to P. Burns & Co. at Calgary.

The fine rain we have had has brought up the grain in good shape, and the farmers say that prospects were never better for a bumper crop, fall wheat in particular is looking excellent.

The Prize list for the Crossfield Agricultural Society is now complete and the Secretary, S. Timmins, is busy sending them out to the members. If you don't receive one it will be because you are not a member and you know how to remedy that.

At the meeting of the Board of Trade on Tuesday evening the committee on the sports for Fair Day submitted their draught of the programme of the proposed day's sports which were accepted by the Board, with one or two slight alterations. The Committee have a very good programme both in the way of running and harness races, and everyone can be sure of a good afternoon's entertainment on Thursday, June 22nd.

MILLINERY,

I will have on Display at
Ontkes & Armstrong's
STORE, CROSSFIELD.

CROSSFIELD, ALBERTA.

DAVE'S CORNER

How about that suit you promised yourself. We can fix you up from HEAD TO FOOT. If we have it, it is good and the best is none to good for you.

D. G. HARVIE

What Many Wives Know
 "Ah," she sighed, "for many years I've suffered from dyspepsia."
 "And don't you take anything for it?" her friend asked. "You look healthy enough."
 "Oh," she replied, "I haven't indignation; my husband has."

MADE WELL AND STRONG

By Lydia E. Pinkham's
Vegetable Compound

Toronto.—I gladly give my testimonial in favor of the wonderful medicine. Last October I wrote to you for advice as I was completely run down, had bearing down, and the lower part of bowels, backache, and pain in the side. I also suffered terribly from gas.

After receiving your directions, I followed them closely and am now entirely free from pain in back and bowels, and am stronger in every way.

I also took Lydia E. Pinkham's Vegetable Compound before my baby was born, and I recommend it highly to all pregnant women.—Miss F. VANDY, 92 Logan Ave., Toronto, Ont.

Another Woman Cured
 Maple Creek, Sask.—I have used Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I am now in perfect health. I was troubled with pains every month. I know other women who suffer as I did and I will gladly recommend your medicine to them. You may publish this if you think it will help others.—Miss F. L. COOK, Maple Creek, Sask.

If you belong to that countless army of women who suffer from some form of female ill, don't hesitate to try Lydia E. Pinkham Vegetable Compound, made from roots and herbs.

Feminine Amenities
 Stella—I am engaged to a struggling young lawyer.

Bella—Dear me, he is trying that hard to get away?

You Can Cure Chest Colds

And Bronchitis by Using DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE if You Get the Genuine

The mere mention of pneumonia and consumption causes a person to shudder, but a cold is such a common thing that it is too often left alone until these other ailments develop from it.

You can readily cure throat and chest colds, croup and bronchitis, by using Dr. Chase's Syrup of Linseed and Turpentine. This medicine is both thorough and far-reaching in its influence on the system. For this reason its merits are well known and its sale enormous.

But there are at least four imitations of Dr. Chase's Syrup of Linseed and Turpentine. And imitations are always a little cheaper, how else would they sell. They are never sold on their own merit but on the merit of the article they imitate.

Their likeness is in name only, and when you are in need of medicine you don't want to depend on a name or imitation. Every bottle of the genuine bears the portrait and signature of A. W. Chase, M.D., the famous Eclectic Book author. 50 cents a bottle, family size 60 cents; all dealers, or Edmondson, Bates & Co., Toronto.

Modest Sailer—"I am going to marry your sister, Jimmy, but I know I am not good enough for her."
 Candid Little Brother—"That's what she says, but Mr. B. is best telling her she can't do any better."—Baltimore American.

 No. 23 THE PR...

Hangers For Clothing.

Do you appreciate the usefulness of skirt and coat hangers?
 These wire frames by which to suspend clothing are a great aid in keeping it in good shape. A skirt hung from a rod that clasps the two ends of the folded band firmly and hangs the whole from the center holds its shape much better and longer than one hung from two loops in the band slipped over hooks in the closet. A skirt improperly hung sags and pulls out of shape.

The wire shoulder frames keep the shape of waists and coats intact. They must less, unless very delicate, than it laid in drawers. Any woman may have at slight expense a supply of shoulder frames wound with cotton and covered with shirred ribbon, which, sewed with her favorite sash powder, will be a help toward keeping her wardrobe in good condition.

Preming and cleaning of suits have become an item of no small magnitude in a woman's bill of expense. It is "up to her" to reduce it as far as possible by the care she gives her clothes. To look well gowned implies care and personal attention to little details—braids and buttons, little rips and those ugly spots one gets, she doesn't know where or how.

The Irony of Fate.

"Pa, what's the irony of fate?"
 "I'll try to explain it as well as I can. I, once had a strong desire to leave up something for a rainy day. I saved myself many pleasures so that I might put by a little from time to time, and at last I had quite a nest little pile."

"What happened then?"
 "One night your mother became possessed of a foolish idea that she smelt smoke, and when she stuck her head out of the window one of our neighbors tumbled in an alarm. The department quickly responded, and before I could get my trousers on they had knocked a hole in the roof and absolutely ruined everything I had saved up for the rainy day by pouring water on it."—Chicago Record-Herald.

BANISH PIMPLES AND ERUPTIONS

IN THE SPRING MOST PEOPLE
NEED A TONIC MEDICINE

If you want the best of health and new strength in the spring you must build up your blood with a tonic medicine. Following the long, cold winter months most people feel depressed and easily tired. This is because the blood is thin and watery. It is this state of the blood that causes pimples and unsightly eruptions. To take some condition of attacks of rheumatism and lumbago; the sharp, stabbing pains of sciatica and neuralgia; poor appetite, frequent headaches and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired out, ailing men, women and children. If you are feeling out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits and fill your veins with new, health-giving blood.

Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail at 50c a box, or six boxes for \$2.50.

Post (talking his children through the art gallery): "Good heavens, my little ones, look at that picture. 'Sleep on a park bench.' The painter has actually put my last volume in the fellow's hand."—Fliegende Blätter.

They Boothe Excited Nerves.—Nervous affections are usually attributable to defective digestion as the stomach dominates the nerve centres. A course of Farmelee's Vegetable Pills will still all disturbances of this character, and by restoring the stomach to normal action the nerves from irritation. There is no sedative like them and in the correction of irregularities of the digestive processes, no preparation has done so effective work as can be testified to by thousands.

"My dear," said the conscientious wife to her husband, "really, you should not be so extravagant in your statements."

"What's wrong now?" asked the man.

"Before the children you told Mr. and Mrs. Bayne that when your grandfather got a cold in his chest he would cough so hard that his hair fell out. Now, what sort of regard for the truth will our children have if they hear their father telling such—"

"But didn't you know that my grandfather wore a wig?"

Played Truant

A boy twelve years old, with an air of melancholy resignation, went to his teacher and handed in the following note from his mother, before taking his seat:

"Dear sir:—Please excuse James for not being present yesterday.
 "He played truant, but he needsn't whip him for it, as the boy he played truant with and him fell out, and he licked James; and a man they throw stones at caught him and licked him; and the driver of a cart they hung onto licked him; and the owner of a cat they chased licked him. Then I licked him when he came home, after which his father licked him; and I had to give him another for being impatient to me for telling his father. So you needn't lick him until next time."
 "He thinks he will attend regularly in future."—Dundee Advertiser.

Minard's Liniment Co., Limited.

Dear Sirs,—YOUR MINARD'S LINIMENT is our remedy for sore throats and all ordinary ailments. It never fails to relieve and cure promptly.

CHARLES WHOOTEN.

Port Mulgrave.

If there wasn't any such thing as running for office some people would never know how unpopular they are.

A Pill For All Seasons.—Winter and summer, in any latitude, whether in tropical or temperate climates, our Vegetable Pills can be depended upon to do the work of a cathartic, and will then a friend always and should be kept in the house. They are made to withstand any climate and any season, and they are gentle and strength. They do not grow stale, a daily use, in any season, in any climate, and would use no other preparation.

Wife—John, John, there's a burglar going through your trousers.
 Hub (unconcernedly)—Oh, you two fight it out between yourselves.—Boston Transcript.

Keep Minard's Liniment in the house

"Your husband wears 'is 'air terrible short, Mrs. Gubbins."
 Mrs. Gubbins—"Yes, the coward."

\$3,600 in Cash Prizes for Farmers
 ARE you going to build that new horseblock, sidewalk or dairy house of cement? Then insist on your dealer supplying you with the "CANADA" Cement. Not only will this ensure your getting a pure, uniform and strictly high-grade cement, but it will also entitle you to enter our Prize Contest. And in this contest you stand a good chance of winning a prize worth perhaps more than pay you for the cost of the work. Every farmer in Canada who uses "CANADA" Cement is eligible to compete. Four prizes will be awarded in each Province and these prizes will be divided as follows:
 PRIZE "A"—\$100.00 to be given to the farmer in each Province who will use "CANADA" Cement.
 PRIZE "B"—\$100.00 to be given to the farmer in each Province who uses "CANADA" Cement.
 PRIZE "C"—\$50.00 to be given to the farmer in each Province who furnishes us with the photograph showing the best of any particular kind of work done on his farm during 1911 with "CANADA" Cement.
 PRIZE "D"—\$100.00 to be given to the farmer in each Province who submits the best and most complete description of how any particular piece of work was done.
 Notice how we have purposely planned and imposed certain necessary conditions in order to give large and small users of cement an equal opportunity. As an illustration of this: in prizes "C" and "D" the quantity of cement used has no bearing whatever on the result. The farmer who sends us the best photograph of as small a thing as a watering trough, or a gate post, has as much chance for prize "C" as a man who sends a photograph of a house—and the same applies to prize "D." Do not think that we don't look back from entering because you think you can't think of in the way of farm utilities, doors, vats, troughs, stairs, posts, etc. It's very simple. Besides, we have a 150-page book that we will send you free on request, which tells you all about concrete and how to make and use it. In this book, you'll find complete instructions for the making of all most everything you can think of in the way of farm utilities, doors, vats, troughs, stairs, posts, etc. It's very simple. Commercial contract rates upon application.

A. C. HATHAWAY,

EDITOR AND PROPRIETOR

CROSSFIELD, ALTA., MAY 12, 1911

A Few Words on a Touching Topic

The residents of Crossfield are up against the same old question that has been the bother of all other small towns since cows have been domesticated.

A few years ago some one made a motion for the bill, for a village pound law and when it was passed went to bed with the idea that he had done man-kin a great favor, never dreaming that the people who live in the villages that adopted this by-law would have the nerve to ignore it, but such has proved the case.

This is a land of independence and freedom and some people have the idea that if they choose to keep a cow that she should have a perfect right to eat up other people's garden, drink their rain water that has been caught especially for wash day, and make themselves a general nuisance to all around them, and then if they don't kick up too much of a row the lady who owns this dear beastie may bring you over a pint of skimmed milk to pay you for the garden that her cow had consumed the night before.

Of course as in all other cases there are two sides to this question and the people who own the cow can tell another story about their cows being brought in from outside the town limits and put in the pound by an over zealous constable, and the owner has to dig up \$1.00 or 50 cents as the case may be to help keep up that worthy's expenses, and they naturally feel that they don't care how much garden the cow gets next day.

The council passes this by-law, and when this is done it seems that it is pretty nearly up to them to enforce the law and keep the cows out of the village limits.

Childhood's Opportunity

No greater encouragement to thrift has ever been presented by any country than is offered to the people of Canada under the provisions of the Canadian Government Annuities Act, which was unanimously passed by both Houses of Parliament in 1908. While any resident of Canada may purchase the Act was devised chiefly to enable wage-earners and others with limited incomes to make absolutely safe provision for the closing years of life in a way that would be impossible to make under any other conditions available. For example, a mechanic, whose weekly wage is but a little larger than his weekly expenditure, by paying \$1.00 a week, purchasing Annuities for his two sons aged 5 and 7, the Annuities to become payable at 60. From that time as long as they live a yearly

income of \$547.76 and \$197.78 respectively will be paid them by the Government. If they die before they are 60, the money paid in will be refunded to their heirs together with 3 per cent compound interest. So that for a total of \$2,808 to be paid in an income combined of \$1,015.51 or greater than the income to be derived from an investment of \$20,000 at 3 per cent, would be received. The one thing is feasible for a man even with a very limited wage, while the other would be quite impossible for him. Taking advantage of the low rate to be obtained when the children are young is what parents should aim at, the children would carry the payments themselves as soon as they are able.

What a payment of 25 cents or 50 cents a week would purchase at any age may be ascertained upon application to S. T. Bastola, Superintendent of Canadian Government Annuities, Ottawa, to whom letters go free of postage.

A Narrow Escape

At about 12:30 on Monday noon the residents of Crossfield were aroused by the alarm of fire, a lamp having exploded in H. E. Hopcraft's shoe repair shop, and was making a good start when discovered by a passer by who noticed a light in the window and thinking it was rather late in the day for a lamp to be burning tried the door and found it locked. He promptly broke in the door and with the aid of a few pails of water contributed by several different ones the blaze was soon under control.

This is the first alarm of fire that has been given since the fire engines have been installed, and one of them was promptly on the spot as soon as possible after the alarm, and the other was out its way when it was needed that neither would be necessary, but it was very fortunate that the fire was discovered so soon otherwise the entire block would certainly have been wiped out and the Chronicle would not be here to tell the story.

The Rod and Gun

"In the land of the Moose Bird," the story of a trip eleven hundred miles by canoe and portage from the north shore of Lake Superior to Hudson's Bay, via the Albany river forms the attractive feature of the May issue of Rod and Gun in Canada, published by W. J. Taylor Limited, Woodstock, Ontario. The narrative is by Mr. W. J. Malone one of the many visitors from the States who find the visits of Canada advantageous, from a holiday point of view, impossible to obtain elsewhere. Mr. Malone's writing is full of life and vigor and his narrative is brightened by accounts of incidents by no means usual even in exploration trips taken so far afield. The route taken was one few white men, apart from Hudson's Bay employees, have followed and the story is the more interesting on that account. With such a good opening the reader is led on to other articles and stories and in particular should attend to the papers on Big Game Problems and the Destructiveness of Wolves. Accounts of western hunts are also good and should interest hunters in eastern and central Canada.

LOCALS

A gang of men have been busy here for the last week re-enforcing the Government telephone system here, and when complete will be a decided improvement on the old

Large tracts of timber in Manitoba and Ontario are being ruined by the forest fires that are raging there, reports say that unless they get rain soon the forests will be almost wiped out. We are not suffering for want of moisture here in Alberta.

Levi Brillinger, a homesteader, out at West Hope, was sentenced to three months confinement by Magistrate Davis last week. Brillinger had taken a liking to wandering about the prairie, sleeping about where ever night overtook him. The case was reported to the Mounted Police, who went out and took charge of him, and it was thought that confinement for a time would perhaps get his mind straightened out again.

It was announced yesterday by the Hon. Duncan Marshall, Minister of Agriculture, that experimental farms would be located at Medicine Hat, Claresholm, Olds, Stony Plains, Vermilion, Sedgewick and Athabasca Landing this season, and that the construction work would be commenced at once.

A Warning

Brother there a man with soul so dead,

Who never to himself hath said,
"My trade of life is getting bad,
I'll try another ten-inch ad."
If such there be, go mark him well,
For him no bank account shall swell;

No angel watch the golden stair,
To welcome home a millionaire.
The man who never asks for trade
By local line or ad displayed,
Cares more for rest than worldly gain.

And patronage but gives him pain,
Tread lightly, friends, let no rule sound

Disturb his solitude profound;
Here let him live in calm repose
Unthought except by men he owes,
And when he dies go plant him deep

That naught may break his dreamless sleep;
Wherein no clamor may dispel
The quiet that he loved so well;
And that the world may know its loss,

Place on his grave a wreath of roses
And on a stone above, "Here lies
A clump who wouldn't advertise."

Business Locals

SILVERWARE—F. H. Motheral, the Jeweler, carries some new pieces in Silverware suitable for wedding presents.

Money to Loan on Improved Farms. No commission, no delay. You get the money in a few days. See Hultgren & Davis.

THE DISPATCHER AT ERIE.

He Had the Makings of a Hero
in Him.

By HADLEY F. FREEMAN.

(Copyright, 1917, by American Press Association.)

"Sarah, I have finished Harvard, and my father will obtain for me the second vice presidency of the Great Central line. You know I love you and you only. Will you marry me?"

"Henry," she said, "let us not discuss it here. Come with me into the conservatory." Uncle seated there, Henry, impetuous and quick tempered, burst out: "Sarah, you would not refuse me? Have you deceived me? Do you love another? Would you?"

"Henry," she interrupted, "be quiet. I love no one but you, but I cannot marry a man who has not proved his ability."

"But I do not need"—

"Do not need? True, not now, but if a crash should come or your father should die what would you do? What could you do? What work have you ever done? Do something to prove your ability."

"Sarah, you are right. I have never done anything. I have been quite useless, but I will show my worth."

The effect on Henry was remarkable. The next day bright and early

RUSHED TOWARD THE BIG SOUNDHOUSE.

he entered his father's private office. The elder Sutherland greeted his son with a pleasant "Good morning."

"Dad," Henry stammered, "I want to talk things over with you."

"What's wrong now?"

"Everything."

"And in particular?"

"Sarah won't marry me until I do something."

"And you intend?"

"To throw up the vice presidency, start in at the bottom and work up."

"Very well. When do you wish to begin?"

"Tomorrow."

"All right, I'll see to the job."

That night his father said quietly:

"Report to the dispatcher at Erie. O. Leave here at 2:30 a. m. It's fortunate for you that telegraphy was of consequence, as several branches of the main line converged there."

"Good night," said Henry and turned in.

And the next morning found him on his way from New York to Erie without having seen Sarah. Happy in the thought that he was to prove himself, he spent most of his trip composing a letter to her telling all and explaining his departure without seeing her.

The next afternoon he reached Erie tired and sleepy. From supper he went directly to bed in the home of one of the dispatchers, where he had secured room and board, and at 6 the next morning he began work.

He soon found that train dispatching was not easy. During the first weeks of his work he was excited and watched by the dispatcher whose place he was to take. Then began the slight shift, as far as he was concerned, he was hardy on the map, but as a railroad point it was most important. It was a division point of consequence, as several branches of the main line converged there.

Henry was given complete charge of a branch which loaded but four trains, so it was easy for him to take care of the wire and the train sheets.

How could he keep awake? The station with its cozy fire was almost banished except for the feeling of loneliness.

He worked on, continually cheered by his letters from home and Sarah and by his own satisfaction at doing

something well. And the first pay day—could the bank hold his first four weeks' wages, his \$200? Then he was given a really important check.

But soon he began to be discouraged. Nothing happened. There seemed to be no way to prove himself. And then the first came.

In the middle of February came probably the heaviest and most severe storm ever known to that region. The rain, chilled by the lower air and falling on the colder objects below, froze and formed one continuous ice sheet enveloping everything below. Down went trees, fences, wires and bridges—work, night and day for the repair gangs.

With the wires down, the railroads resorted to the old schedule system of dispatching. But trains were late and the tracks slippery. After six hours of turbulent labor a single line was run along the afflicted district of the Great Central lines and limited communication resumed.

On the night of the 10th Henry was sitting down by his little stove. In these dreary days he engrossed himself with the newspaper and came the call for Erie—Er, er. Answering, Sutherland received the awful message: Rocky cut bridge down and the National Limited has passed here. Signed, Springleade.

Springleade was the first night station east of Erie and thirty-two miles away. Rocky cut was a mile and a half from Erie in the same direction and spanned by an old wooden railroad bridge. What a shock! Quickly he thought and quickly formed his plan.

On went his hat, coat and gloves, and with the door open he rushed toward the big roundhouse. On a nearby siding with steam up stood a switch engine, into which he sprang after opening the switch on to the main track.

He pulled the reverse lever and backed out of the siding on to the main track. With all possible haste he reset the switch, re-entered the cab and opened wide the throttle.

Never before had he gone so fast, never before had he attempted to run alone. In fact, his largest experience in running had been acquired on his father's private line. Now he seemed to stand still. Yet the cut soon opened before him. He braced himself, jammed on both brakes, and as the engine stopped on the edge of the bank he swung to the ground, slipped on the ice and snow and finally sank into a heap.

He tried to rise. He could use but one foot—he had broken his ankle. How, with only one leg, could he cross the river? But he crawled down to the edge, hoping to make his way over on the ice. But the river, contrary to his expectations, was open. He waded, almost back on his feet, the thoughts of Sarah and his opportunity—and plunged into the icy flood.

Hindered by his useless leg, he seemed to make but little progress. Would he never reach the other side? He was fast becoming exhausted when he struck firm ground and crawled out of the water. Finally he made his way up to a section shanty, where he spent torpedoes for just such an emergency. He grasped several and hurried as fast as possible up the bank. He must give the warning far enough from the bridge to allow the racing train time to stop.

And now his iron constitution, which won him collegiate sporting fame, served him well.

He must go faster. He had but little time. He tried to walk on his broken leg, but it would not support him. He must crawl again. Oh, he could only run, even for a minute or two! But hark! Even now in the distance he hears the whistle of the approaching train. Disappointed, he stops his mad race and fires the torpedoes securely to the track.

Now he waits, but not for long. The train roars around but curves, passes the torpedoes should fall! But his fears are groundless. As the train passes, one torpedo after another explodes, and the engine and the coaches groan, creak and come to a standstill. The train is saved!

Exhausted and no longer upheld by the intense excitement, he sank down unconscious. In this condition he was found by the trainmen. From letters in his pockets his identity was established and became known throughout the train. "Henry Sutherland" cried a young woman who rushed out of a car.

She hurried down the track to where they were taking the unconscious man into a sleeper and immediately a surgeon came. After he had been carefully placed in a berth she sought to soothe him with endearing words and loving caresses. In the meantime a trainman went through the car for a surgeon. One specially came, and together they set the broken ankle, bound it and made splints to hold it in place.

Again the doctor examined the man and then shook his head ominously. He had developed pneumonia and will need the most careful nursing.

"Oh," cried Sarah.

"He had best be taken to a hospital as soon as possible. Will you attend to it?"

The limited was detained over another railroad, and when they reached Toledo, the first large city, Henry, still unconscious, was removed from the train and carried to a hospital.

With her father and mother Sarah had been on her way to California. After the accident she refused to go further, but determined to stay in Toledo with friends. Brave she tried to be, yet the strain was terrible. It was because of her he had been so far from home that it would be her fault! Thus she worried. Would he never recover?

Then came a sunny and summer-like day in early March, with the warm breeze blowing through the window, the recovering patient was allowed to see one visitor.

"Whom shall it be?"

"Sarah—Miss Green."

And when she rushed into the room and to the bedside, weak though he was, he was strong enough to clasp her tightly to him, while he asked the right question about his ability and was answered by the dearest girl in the world with a look, a kiss and the one word—"Yes."

Where He Scored.

A statesman who was defeated for office tells a good story on himself. "I was cocksure," he says, "before the primary election that I would beat my opponent good and plenty. I didn't hesitate to say so, either. I was licked good and proper, and what happened to me is best expressed in this story."

He told of a certain chipmunk coming out of his hole and getting on a good vantage point, where he frequently reiterated, "This is a little more bombastic than ever the hawk made 'a swoop and a swipe at him.' There was a swoop for a second, and the hawk came up with several swears from the chipmunk's back. The latter shot into his hole. Some time later he emerged, warily peeping around. 'Did you lick him?' asked the sparrow. 'No; I didn't lick him,' replied the chipmunk, and then proudly, 'But I escaped with my life!'"

Kansas City Journal.

The Gardener Bird.

The highest development of the decorative instinct in animals is found in the gardener bird (amphispala). This plain looking native of New Guinea builds its nest on the ground, spreads moss before it and over this green carpet scatters bright berries, flowers and leaves. The flowers are replaced by fresh ones.

Wouldn't You Like This Costume?

Burton Holmes, the popular lecturer, seems to be quite an appreciative of the picturesque in costumes as in scenery. He holds him in the literature of his latest satirical drama—a Hungarian costume story to Moscow is worn by the men of this Austro-Hungarian province.

What woman, seeing the modish possibilities of this native dress, would

There are some good stories in

Go down W. Russell's new book, "Sketches and Snapshots."

Queen Victoria wished to give Prince Albert the title of "King by Act of Parliament. To this Melbourne said: 'For God's sake, no. Let's have no more of it.' If you once get the English people into a habit of making kings, you may get them into the habit of unmaking them."

Speaker Denison, one night, when storm clouds were gathering on the House, "stepped from the Chair to the Chief Clerk, Sir Denis Le Marchant, and sat immediately below him, and murmured in his ear, 'Sir Denis, I don't at all like the look of things this evening. What would you recommend me to do?' 'I should recommend you,' said Sir Denis, 'to be uncommonly careful,' said Sir Denis, and went out to his dinner."

IS A HARDY YOUNGSTER.

Prince Edward of Wales Lives a Healthy Life.

Nothing could be more erroneous than the idea which exists in the mind of some people that the children of royalty are pampered pets. Although born to exalted rank, it does not follow that they live in an atmosphere of luxury. Indeed, in the majority of cases the kings and queens of to-morrow are trained and educated in a far more simple and disciplinary manner than hundreds of other little folk in humbler roles.

Take, for instance, Prince Edward of Wales, who is at present being educated at Dartmouth College. His parents' idea is to make him into a hardy little prince, and with that end in view instructions have been issued that he shall fare in exactly the same way as the other cadets, with the same hours of study, the same food and accommodation, and like all the other boys he shall have to work for pocket-money and no "lick-shop" account allowed.

Of the Emperor, as is well known, is one of the strictest princes in Europe. He brought up his sons on severe lines, and the German Crown Prince is determined that his little son, who is now four years of age, shall be brought up in the same plain and healthy fashion on simple food and plenty of work. The Crown Prince's son took up the study of Arabic, and his father, for she is imbued with the sensible idea that they should be fit to do any kind of work.

For two brief years his mother had her son at home, and on his second birthday all this has changed. The prince is now considered the property of the royal family, and subject to the orders of the emperor. He will henceforth be brought up in the discipline which the emperor himself and his sons, and all the German princes for generations have followed.

The seven-year-old Prince Olaf, Crown Prince of Norway, like his cousin, the Prince of Wales, has been brought up in a simple, unaffected way. His parents allow him to live as much as possible, and he is never so happy as when skating or sailing. He is extremely popular with his father's subjects, for he is a simple, merry-hearted fellow who, although he once confessed to be a little "king," is being brought up with the idea of first making a man of him and then a king.

Another engaging little chap is Prince Leopold, who will one day inherit the throne of Bavaria. He is a grandson of the aged Prince Regent of Bavaria, and is a very lively fellow, who still goes hunting in bare knees, according to the national custom. Prince Leopold, like his cousin, is the son of a small country farmer, so little is he affected by his exalted sphere in life.

It is a curious fact that both the King of Italy and the Czar of Russia have gone abroad for governesses for their children. In the case of the latter, the governess was a Russian lady who acted for some years as governess to the little princesses of Russia, and was afterwards married to a Russian nobleman.

Woman's World.

Author of "The Rosary," a Sister of Maud Ballington Booth.

MRS. FLORENCE L. BARCLAY.

To the many women who have read with absorbed interest that delightful story "The Rosary" it will be of interest to know that its author, Mrs. Florence L. Barclay, is a sister of Maud Ballington Booth, who also has written some charming books for children.

The author of "The Rosary" comes from an English family trained in the traditions of the very best literature, and many of its members have achieved distinction through their pen. She is the granddaughter of Mrs. Charlesworth, whose "Ministering Children" was read with such avidity when it appeared a half century ago. She is a niece of the learned Arabic scholar Professor Cowell of England, to whose persuasion it was due that Fitzgerald took up the study of Arabic. Professor Cowell rendered valuable assistance in the connection with the translation of "Omara Khayyam."

Mrs. Barclay's new novel, "The Mistress of Shensstone," is said to transcend in interest the much appreciated "Rosary" and follows out the late career of certain characters who were so sympathetic in the former novel.

The Woman Who Farms.

Few of the men who fall in farming because they have taken it up either too hastily or with too little capital or because they have already worn themselves out at some other vocation and have not the strength for the hard work of the farm. If a teacher finds some disadvantages in caring for fifty restless children she must not expect cutting seed potatoes to be sheer pleasure, says the Saturday Evening Post.

The ben run cannot take the place of the woman's club, nor can the tomato field be regarded as a salon.

Undoubtedly those who get along best are the ones who have brought up on a farm and thus have had the right sort of exercise for the mind of physical development most suitable to them. They have had the practical work, and they can, if necessary, do all the farming operations. There are multitudes of such women standing behind the men farms of this country. Those who stand alone on farms of their own are to be found in the east rather than in the west. The reason is not only that land is cheaper in the east, but that men are rarer, and in the west many women who could succeed well on a farm are taking the chance of succeeding well in marriage.

Watch on Sept. 1st.

HOW TO WIN

The following is the way the points will be
awarded:

News of your District every week	500
Each week's news	100
New Subscriptions	100
Renewals	50
Other business 50 points for each dollar.	

Only one person in each of the following districts
will be accepted as a candidate, and the one with the
largest number of points to his or her credit on Sept.
1st, will receive the Watch:

Ena, Rumworth, Rodney, Acme, Munson, Airdrie,
Nose Creek, Cochrane Lakes, Bottrel, Dog
Pound, Beaver Dam, Cremona, West
Hope, Sampsonston and other points.

The sooner You get started the
more chance you have winning.
Start NOW. Some one will WIN.
Contest Opens May 1.

COCKSHUTT

ENGINE GANG

Simple

Strong

Durable

The Original and the Best

A good thing is known by its many imitations. Why buy a complicated engine when for the same money you can get the "Cockshutt" embodying all the latest improvements suggested by years of experience? Made in few sizes of frames in which any number of plows may be attached, from four to twelve. Equipped with either Stable or Breaker Bottoms. Unequaled in turning Soil, and holds the record of a perfect score in turning Stable.

Special Illustrated Book on Tractor Plowing &c. on request, or better still, Call For Full Particulars
